Pelias is built on a hillside overlooking the Aegean Sea, above the beautiful village of Kardiani. The village has been inhabited from ancient times as proven by burial sites from the geometric age. Today it is registered as a traditional Cycladic settlement. INTRODUCTION

I am pleased as LHMI NVP of Greece to invite you to a very special International Seminar in a really sacred place in Greece (Island of Tinos)

During the Medieval times of “Homo Universalis, the scientists were dealing with both scientific and art discipline (like Guru of knowledge).

In the era of A.I. the only way to keep our Homeopathic souls is to be united and focus in our Hahnemann ‘s principles!

This is a meeting that joins Homeopathy from East to West in a beautiful Greek island where we will try to initiate sincere communication, enhance and redirect previous experience to the future benefit of Homeopathy! And of course we will give space to innovative ideas and original thinking in our beloved science.

There will be also a teachers meeting to discuss and moderate our educational activities!

Our strength is our unity!
